PROFESSIONAL SUMMARY

B.C.A. graduate specialised in Cybersecurity & Forensics — wired to find what's broken and fix it. Backed by hands-on internship experience and a Product Management foundation from Airtribe, with a record of taking product ideas from research to live, working prototypes. Looking to bring a technical-plus-product mindset to an APM role.

EXPERIENCE

Flutter Developer Intern · Hindtech IT Solutions *Feb 2025 – May 2025*

- Built 2 mobile apps end-to-end: BlueSpeak AI (Google Gemini 2.0, NLU-driven assistant) and Aspire Live (Zegocloud SDK, real-time live-streaming + social features) — owning architecture, UI, API integration, and QA.
- Delivered sprint-ready code in an Agile workflow; proactively implemented feature changes based on evolving project requirements.

Marketing Intern · FuzeMee *Oct 2022 – Jan 2023*

- Ran paid campaigns on LinkedIn, Instagram & Facebook, growing lead generation and audience engagement by 10% through targeted ads and lead conversion.
- Built an early-stage client pipeline through social outreach, developing product-market positioning instincts relevant to APM growth.

EDUCATION

B.C.A. — Cybersecurity & Forensics · Babu Banarasi Das University, Lucknow *Graduated: Jul 2025*

Product Management Program · Airtribe *Jan 2026 – Aug 2026*

Industry-led cohort · PRD Writing · Roadmapping · User Research · Prioritization · Go-to-Market Strategy

PROJECTS

Technical Projects *— Flutter / React Native*

- **Pdb** — Personality-type social app (React Native, Supabase, Gemini API); wrote the PM case study, then built AI-guided onboarding, live communities and a public demo.
- **BlueSpeak AI** — AI speaking coach (Google Gemini 2.0); instant corrections, tips and scores, with state management & an intuitive UI.
- **NutriGen** — Meal planner with an AI pantry scanner and AI meal ideas (React, TypeScript, Supabase, Gemini API).

PM Case Studies *— Airtribe Program*

- **Stable Money Prototype** — PM capstone: a clickable retention prototype for first-time fixed-deposit investors.
- **Ola Share Adoption** — Root-caused low ride-sharing uptake; designed onboarding redesign + tiered incentive model via user research & competitive benchmarking.
- **Zepto Product Discovery** — Mapped quick-commerce friction via user interviews; delivered RICE-prioritised PRD with roadmap targeting highest-impact features.
- **YouTube Premium Growth** — Diagnosed retention drop-off; proposed growth loops and A/B testing framework to lift Premium conversion for a key segment.

SKILLS

Product: PRD Writing · Roadmapping · RICE / MoSCoW · OKRs · Jobs-to-be-Done · User Story Mapping
Research: User Interviews · Competitive Analysis · Data-driven Prioritisation · A/B Testing
Technical: Flutter · Dart · React Native · TypeScript · Supabase · Firebase · REST APIs · Git · SQL (basic) · Prompt Engineering
Tools: Figma · Notion · Jira · Google Analytics · Canva · Claude Code · Lovable · Replit
